

along — Sprint 7: Completion, Memories & Passport

Sep 28, 2026 · @Praveenkumar Jogannavar

Split out from the along — Sprint Epics, User Stories & Journey Maps document for standalone sprint planning.

Goal: a finished trip becomes a lasting, revisitable memory instead of just closing a ledger.

User stories

ID	Story	Acceptance
7.1 (US-18)	As a user, I want to complete a trip and keep it in history	Trip becomes historical but stays fully readable, including outstanding balances
7.2 (US-19)	As a user, I want a passport stamp for completed travel	One corresponding stamp is created on qualifying completion, never duplicated
7.3	As a member, I want to add photos and notes to a completed trip	Memories save and are scoped to that trip only
7.4	As a user, I want to browse my Travel Passport	Stamps show chronologically; tapping one opens that trip's summary
7.5	As an owner, I want to see a summary before confirming completion	Summary shows people, activities, total spend, and outstanding balance before I confirm

Success criteria

- $\geq 50\%$ of trips past their end date are explicitly completed within a week (trip retention signal).
- 100% of completions produce exactly one stamp per eligible destination — zero duplicates under retry or re-completion attempts.
- Completed trips remain fully viewable, with financial history intact, in 100% of QA spot checks.
- $\geq 30\%$ of completed trips have at least one memory (photo or note) added within a week of completion.

User flow

1. Trip Overview → Trip Settings → Complete Trip → review summary (people, activities, spend, balance) → confirm.
2. Trip moves to Past; a passport stamp is generated if eligible.
3. Member adds a few photos and a note to Trip Memories.
4. Later, from Profile → Travel Passport → taps the new stamp → opens the trip summary and memories.

Journey map

Stage	User does	User feels	System response	Opportunity
Wind down	Trip is over, owner opens Complete Trip	A little wistful, wants closure	Summary recaps the trip before confirming	Make the summary feel like a highlight reel, not an accounting report
Commemorate	Adds a couple of favorite photos	Wants to preserve the feeling of the trip	Memories saved, scoped to the trip	Prompt for a photo right at completion, while it's top of mind
Revisit	Opens Travel Passport weeks later	Nostalgic, curious about past trips	Chronological stamps, tap to reopen	The passport is the reason to open the app after the trip ends — make it feel collectible
